Work Experience (4+ years)

Aptware, Remote

Feb 2023 - Present

Senior Frontend Developer

- Led the development of complex web applications using React and Next.js, ensuring a seamless user experience and responsive design.
- Built a ai powered custom chat bot to enhance user interaction and provide real-time assistance.
- Developed a live escalation creation ticketing web app to streamline issue reporting and resolution processes.
- Created an assessment-taking platform, facilitating seamless user experience for conducting and managing assessments online.
- Designed and developed interactive 3D components using React Three Fiber, improving user engagement and visual appeal.

Accenture, Mumbai

Feb 2021 - Feb 2023

Frontend Developer

- Developed and maintained enterprise-level web applications using React and Redux, focusing on performance and scalability.
- Designed and implemented a comprehensive dashboard for a healthcare company to visualize patient data and improve decision-making.
- Integrated RESTful APIs and GraphQL endpoints to fetch and display data dynamically, enhancing application interactivity.
- Worked closely with backend developers to design efficient data structures and improve application performance.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, and retrospectives.

PwC, Mumbai

Jan 2020 - Jun 2020

Frontend Developer Intern

- Assisted in developing client-facing web applications using React and Redux.
- Created a dashboard for a tax-related government project to visualize and manage tax data efficiently.
- Implemented responsive design techniques to ensure applications were mobile-friendly and accessible on various devices.
- Collaborated with designers to translate wireframes and mockups into high-quality code.
- Participated in Agile Scrum processes, contributing to sprint planning and daily stand-ups.

Dreamscape, Mumbai

May 2019 - Jun 2019

Web Developer Intern

- Built and maintained components for a dynamic, responsive website using HTML, CSS, JavaScript, and Bootstrap.
- Developed an e-commerce website using WordPress and WooCommerce plugins.
- Assisted in the integration of RESTful APIs to deliver dynamic content.
- Collaborated with senior developers to ensure code quality and adherence to best practices.
- Conducted user testing and gathered feedback to improve UI/UX design.
